Closing

20.00 - 23.00

Farewell Party

13
09 Thursday

Breakout sessions

Breakout sessions are animated discussions based on the knowledge and ideas produced by URBACT projects.

Walkshops

Walkshops are a mixture of urban exploration and workshop sessions. Participants will discover city initiatives and discuss with local stakeholders.

Round 1

1. Vitality and viability of smaller and medium-sized cities

How can smaller cities be more attractive for their citizens and visitors

2. People Power: Reframing urban governance

Insights into ways in which Europe's cities are shifting decision-making towards citizens.

1. Gender equal cities

How cities can understand and reduce gender based inequalities

2. Affordable housing

Experiences from Europe, learning from Lisbon

3. Governing smart cities

3 things cities must get right when putting data & tech to work

4. Culture, creativity, communities

Turning culture into an engine for integrated local sustainable development

3. Placemaking as a catalyst for improving public spaces

How to increase liveliness in the city

4. The city heritage crisis

Reconciling tourism and local needs in heritage neighbourhoods

Round 2

5. Re-making the city

Find the right solution to your city's space challenge

6. Building up a millennial city

Developing, retaining and attracting young talent

5. Digital city futures: adapt or die

How to grow places to flourish tech entrepreneurship ecosystem

7. Co-creating greener cities

How to design and implement nature-based solutions for healthier, liveable, climate resilient and sustainable cities?

8. Future financial instruments

Establishing flexible Financial Instruments (FI) to meet city economic and societal objectives

Lab | Training

LAB | Trainings are a mixture of a workshop session and a creative capacity building. Participants will learn how to use a tool and also test it.

1. Impact management for social innovation

How can cities manage the impact of their policies?

2. Planning for people and not for vehicles

How urban mobility becomes an integrated part of our city development

3. #Interactivocities

Find out the potential of digital tools in improving urban governance

14
09 Friday

Breakout sessions

Walkshops

Round 1

1. Urban cooperation in Europe: what future?

Exploring proposals for urban policy at European level

2. Get on board the digital wave!

Cities sharing their experience to increase the positive impact of digital

1. Migration integration

It is not just about learning the language and finding work

2. Revitalising the retail sector

Reviving the local shops in medium-sized EU cities

3. Empowering cities as key actors in smart specialisation

How to give the economic agenda a more transforming purpose

4. Working at the fringes

How to make existing post-war urban areas attractive again

3. Local food in urban forks

How agri-food production can help with social inclusion

4. An integrated approach towards a deprived neighbourhood

How a deprived area can benefit from an Eco-neighbourhood project

Round 2

5. Urban funding and financing

The smarter road ahead to combine short-term and long-term financial strategies

6. Waking up the sleeping giants

City stories to reactivate and reuse spaces for the common good

5. Tackling urban poverty from the ground up

Empowering local communities is the strongest tools against inequalities

7. Improving health at the heart of the city

Using public spaces as an asset for physical activity

8. European and US stories of change!

How to develop genuine people powered services through collaborative citizen engagement?

Lab | Training

1. A road map to temporary use

Design your own temporary use journey through vacant spaces

2. Buying a better future

How can cities use public spending to achieve socio-economic and environmental goals

3. How can cities get better at experimenting?

Designing, implementing and learning from experiments to improve local policymaking
